

What to know about

1. Lets Get Fizzical

Fitz is an English sparkling wine produced using the Charmat method. Champagne ferments in the bottle, we use state of the art tanks to focus on a fresher, fruitier style. This makes Fitz the perfect fizz for those that like the fruitiness of Prosecco but also enjoy the complexity and fizz of Champagne .

2. Fitz White Tasting Notes

A dry sparkling wine produced in Sussex. Fine persistent bubbles, Golden in colour, aromas of honeysuckle and white peach with flavours of green apple and citrus.

3. Rulers Breed Rebels

Fitz is short for Fitzroy a name given to illegitimate offspring of Kings. We dared to be different and be the first to create our wines in the Charmat method . This made us the underdog, the bastard child and we embrace it ...

4. Fitz Pink Tasting Notes

A dry sparkling wine with a gorgeous pink hue. Fine and delicate bubbles, aromas of strawberry jam and rose petals with flavours of redcurrant and cranberry.

5. Sustainable Dynasties

At Fitz we focus on producing award winning fizz ethically and sustainably. Our wines are 100% vegan and the energy used in our winery is from renewable sources. We are also members of WineGB sustainability initiative. Fitz has much less distance to travel than Prosecco and Champagne meaning a far smaller carbon footprint .
